ABOUT

I am a second year applied mathematics student. I am currently looking for an apprenticeship and further internship. I am interested in web development, analyzing algorithms, I like using a mathematical approach to solving problems. I like to deepen my knowledge and learn new things.

EDUCATION

Applied Mathematics

AGH University of Science and Technology | 2021 - present

- Bachelor's degree

Mathematics, Physics, English

High school Goszczyński Nowy Targ | 2018 - 2021

MY OWN PROJECTS

Ecommerce Website

My first big project. This project i create using Next.js, Tailwind css on frontend, and Laravel API on backend. This website have features like cart, favourit items, comments, sorting, orders details and admin panel .

<https://github.com/DamianBigos1500/project-shop-laravel-server>

Blog Page

Basic MDX blog. This project was written in Next.js app directory. I use next-auth to manage user login, and prisma ORM to store data. User also can edit their account information and pin favourit blog.

<https://github.com/DamianBigos1500/mdx-blog-next-js-13>

Portfolio Page

Basic portfolio page where I include information about me, and read more about previous projects.
